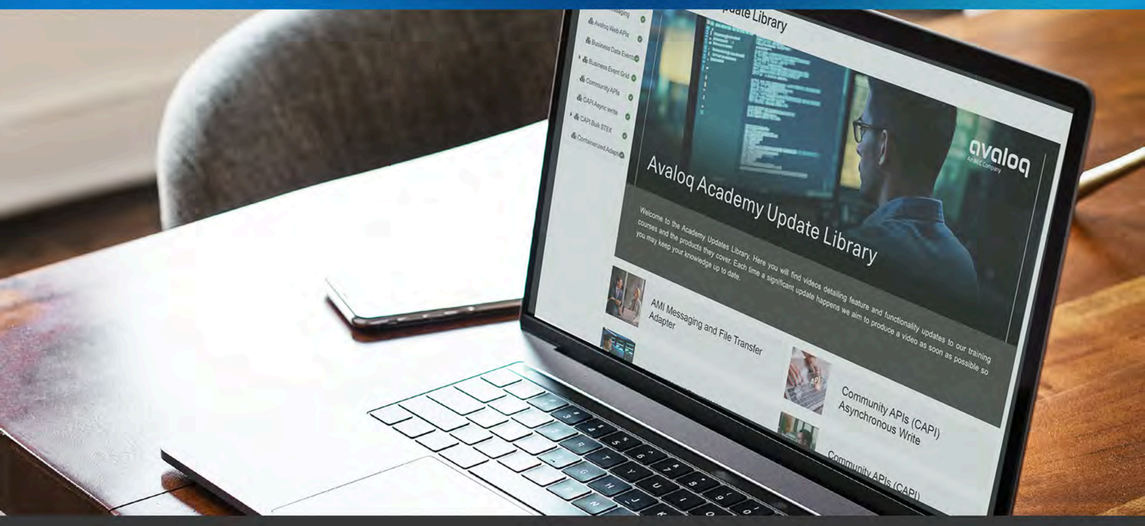
Academy bits and bytes

August 2026

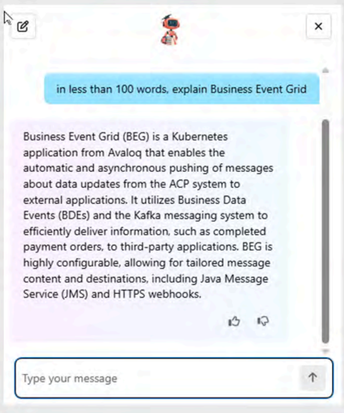


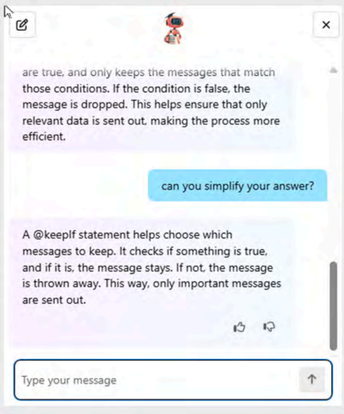
Integration Update Site live!

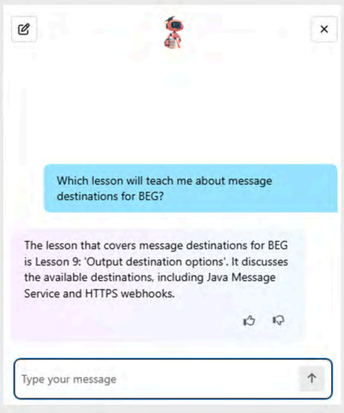
We're excited to announce the launch of the Academy Integration Update Site. This dedicated hub provides the latest updates, insights and learning content related to our Integration courses, helping you stay current with ongoing developments across the track. As a reminder, topics covered in these updates may also appear in the Integration certification exam. Eligible participants will receive access details and further instructions this week.

Meet LEA, your new learning companion!

Embedded directly within the course, LEA, the Academy's Learning Assistant, can answer questions about that specific Avaloq product, supporting you to best match your learning style. LEA is currently available in Integration Use Cases, Business Event Grid (BEG) and RM Workplace courses. We will continue to update the rest soon. Stay tuned!







Sign up to these recertification courses before slots run out!
