

1'350+ Learners and Counting!

In the first half of 2026, we delivered Avalog training to over 1'350 learners across our global community. Nearly 300 participants chose Avalog in a Nutshell to kick-start their Avalog journey, making it one of our most popular courses during this period.

Certified professionals also remained committed to continuous learning through our recertification programme, with the following courses emerging as favourites:

Delta Courses

Delta - Avalog Container Platform Reference (ACPR)

Delta - Community APIs (CAPI)

Delta - Output Management Customization

Delta - Security Aspects of ACPR-based Deployments

Delta - RM Workplace (RMWP)

Delta - RM Workplace (ABR/S)

Elective Courses

ACP System Performance

AMI Messaging and File Transfer Adapter

AMI Web Services and APIs

Business Data Events (BDE)

Business Event Grid (BEG)

Mastering Advanced Avalog Script Techniques

Your Feedback, Our Focus

Based on more than 115 learner feedback comments received so far in 2026, I'm delighted to see strong appreciation for our instructors, course design, and practical exercises. I am personally proud to see consistent recognition of our instructors. Their expertise, clarity, and commitment to helping learners understand how Avalog products work continue to make a real difference.

While your feedback highlighted strong appreciation for our instructors, course content, and hands-on exercises, it also identified several opportunities for improvement:

✔ What You Valued Most

- Instructor competence, clarity, and helpfulness
- Valuable course content and structure
- Hands-on exercises that reinforce learning

🔧 Areas We're Working to Improve

- Education environment
- Pacing, duration, and time allocation
- Self-study resources, prerequisites, and learning materials

New dates added for ABR/S DC 2 and 3

Good news! We've added new course dates for ABR/S Development and Customization 2 and 3 later this year, giving you more opportunities to complete your learning journey. Check the course schedule for details and register early to secure your place.
