

Academy at the Knowledge Day

What an absolute pleasure it was to present and provide an update on our work in the Academy during the Avaloo Knowledge Day. Your thoughtful questions and active engagement truly made the experience more rewarding. Transitioning towards ABR/S has been both exciting and insightful for us, and we're genuinely thrilled about the opportunity to collaborate and bring these plans to fruition.

New course: Business Event Grid (BEG)

Join one of our newest accreditation courses: Business Event Grid or BEG for short. It's a Kubernetes application designed to automatically send messages containing ACP update information to third-party application destinations. It achieves this by leveraging the Business Data Events generated by ACP, which encapsulate updated ACP information from the day-to-day activities of ACP users. How brilliant is that?

We look forward to see you again in class in 2025!

As we approach the end of a busy, challenging, yet profoundly enriching year, I would like to extend my heartfelt thanks to the Academy team for your persistence and discipline. Your professionalism is truly exceptional and consistently goes above and beyond. It's an absolute pleasure to work alongside all of you.

To all the professionals we've had the privilege of training, we hope our courses have been genuinely valuable in supporting your day-to-day work. We look forward to connecting with you again, whether online or, even better, in the classroom!

Wishing you a wonderful holiday season with your loved ones and a fantastic start to the new year.

Jam Wafy
Head of Avaloo Academy
