Effective 1 January 2026, the Academy course pricing shifts to a tier-based structure that reflects country index and key economic factors. This update introduces three tiers—Premium, Mid, and Value—to ensure fairness and consistency across regions, while maintaining the same high-quality learning experience you know and trust. For full details, please visit the pricing page in our course catalogue.

Annual Academy outreach workshops

It's our third year hosting the annual outreach workshops where we share Avaloq Academy's knowledge and expertise with local teachers and students. This year was truly special for several reasons: we partnered with the Philippines Department of Education, held the event at an integrated school that supports students with disabilities, and donated laptops and monitors to enhance the school's computer lab. The event was a resounding success, and we look forward to continuing this meaningful initiative next year and strengthening our partnership with the Department of Education.
