

Academy News

Dear fellow learners,

I hope you had a good start to the new year.

It has been said that an investment in knowledge pays the best interest. For this reason, we will invest more in furthering your knowledge in different areas. We are committed in providing comprehensive educational programmes for you in the following areas: implementation, operations, customization and banking. I believe exploring these new learning paths will enable you to be prepared for the exciting challenges ahead.

In the meantime, let me give you an update on the following topics:

- Featuring ACIP: project managers as implementation professionals
- Accreditation rules
- 2019 figures
- Social impact

Stay up to date with Avalog Academy by following us on our **social media**.

Happy learning,
Jamela Wafy
 Head Avalog Academy

“The teacher (Gary Smith) was very helpful and patient, he made attending the course very enjoyable! One of the best teachers I've had through 5 years of academia.”
 – on [Avalog Certified Customization Professional \(ACCP\)](#)

Certification pillars

Focus on different skills paths

Avalog Certified Implementations Professional (ACIP)

Avalog Certified Operations Professional (ACOP)

Avalog Certified Customization Professional (ACCP)

Avalog Certified Banking Professional (ACBP)

Certification pillars based on your banking solution

Implementation

Project Manager/Consultant

Defines the project, builds the comprehensive work plan, and manages the team. Facilitates commitment and productivity, removes obstacles, and motivates members.

Avalog Certified Implementations Professional (ACIP)

This course is an introduction to [Avalog's Global Implementation Methods \(GIM\)](#), the framework of standard methods based on best practice for Avalog implementation projects.

GIM [aims to maximize project expertise](#) through standard methods, boost the exchange of resources, facilitate inter-project mobility, and reduce costs, time to market and risks in Avalog implementation projects. Using the GIM framework will [harmonize implementation methods in the Avalog ecosystem](#).

Global Implementation Methods Fundamentals

1 day online training

Global Implementation Methods Cross-functional Overview

1 day onsite training

This course is [aimed at the programme managers, project managers and stream leads of Avalog and implementation partners](#) and helps to ensure a common ground among the people that are leading projects.

Before being able to take the final exam, participants must have successfully completed of GIM and GIM Cross-functional courses.

Accreditation rules

Avaloq's development team is constantly improving and releasing new features to the Avaloq Banking Suite. The Academy's accreditation programme [makes renewing your professional certification easy](#).

Every ACCP certificate is valid for two years. And to keep your certificates valid, you need to earn accreditation points. [120 accreditation points](#) are equal to [four course days](#). Two of these must be Delta courses, and the other two can be any accreditation courses of your choice (electives).

Learn more about the Academy's accreditation process and sign up for a course now!

Social impact

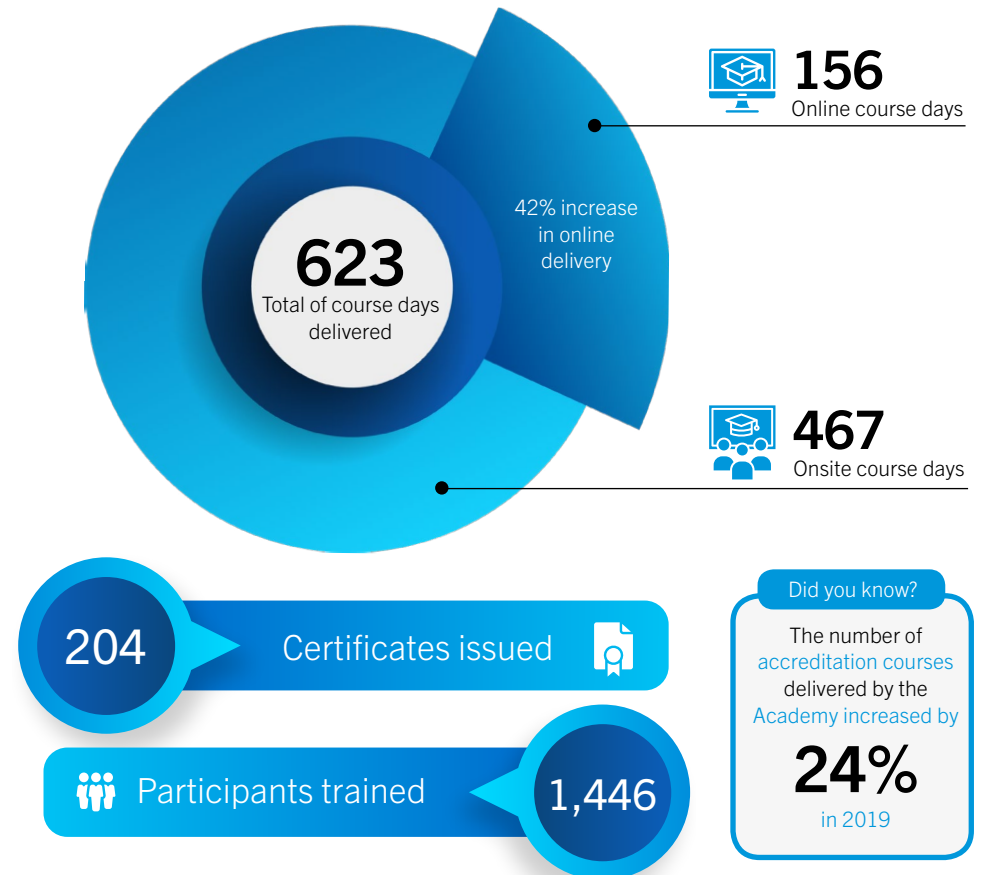

"Simplicity means to choose ways of living that touch the Earth more lightly and that reduce our ecological footprint." - Duane Elgin

Avaloq is committed to doing business responsibly. As part of our strategy to [reduce our carbon emissions to zero](#), we have decided to no longer provide a hard copy of the course materials.

Course participants will get [access to our learning platform](#) prior to the course and can download the material from there. This also facilitates self-study which is beneficial for course preparation. Also, you will [receive your certificates electronically](#).

With this simple change, you can [contribute to a much bigger initiative](#).

2019 figures

Avaloq Academy

The courses and certification programmes at the Avaloq Academy are specially designed to support experts and other professionals who use the Avaloq Banking Suite.
