New course: Delta - RM Workplace (ABR/S)

RM Workplace is a web application designed for client-facing bank professionals, enabling seamless management of client information through intuitive menus, forms, and reports. Our brand new course helps participants to customize RM Workplace using the ABR/S development framework—covering everything from menu structures and actions to color themes, fonts, and branding elements. Through interactive demos, self-assessments, and a hands-on virtual classroom session, you'll gain the skills to tailor RM Workplace for on-premises client needs.
