

# Avaloq Partners

## Implementation Partners

Avaloq maintains the following business partnership categories:

**Implementation Partners** – When carrying out implementation projects, Avaloq customers can benefit from our network of long-time and reliable partners who are set apart by well-founded specialist knowledge in banking and technology and who have extensive practical experience in implementing Avaloq solutions.

**Global Partners** – A type of Implementation Partner. The alliances with Global Partners are covering implementation as well as post-implementation services on a global level. Typically services are delivered out of Competence Centres near or off-shore with a mix of local resources.

**Special Service Partners** – A type of Implementation Partner that have special know-how related to banking and economic topics in the Avaloq environment.
