Dear fellow learners,

I hope you are safe and healthy in the comfort of your own homes. If there is something that this pandemic is teaching me, it’s gratitude. I hope we don’t let this situation pass without learning to appreciate the little things in life, from the home-made coffee to the flexibility our jobs offer us.

At Avaloq Academy, we are doing our best to deliver what we can, given the restrictions imposed by COVID-19. In this quarter, allow me to highlight the following topics:

- Avaloq Certified Operations Professional programme
- Certification courses online
- Front courses
- GIM courses

Stay up-to-date by following us on our social media for more news!

Testimonials

- “The course covered substantial topics for FWP development, it was very helpful!”
  -- on Front Banklet Integration

- “Well-prepared instructor. Delivery of the training was very organized and on time.”
  -- on Delta 2019 H1

- “Lecture has been delivered clearly. Charles was very organized and punctual.”
  -- on Delta 2018 H2

Happy learning and be grateful,
Jamela Wafy
Head of Avaloq Academy
Certification pillars based on your banking solution

Certification pillars
Focus on different skills paths

Operations
IT operators, application managers, application operations managers, system manager, configuration manager, release manager

Certification pillars based on your banking solution

Avaloq Certified Operations Professional (ACOP)

This course aims to provide a fundamental overview of best practices in operating the entire system. Participants will be introduced to the most important components of the Avaloq Banking Suite and to related tools and concepts. The course covers how to handle the daily operating tasks and what action to take in critical cases. It also looks at troubleshooting processes for both the business and development areas.

The complete certification programme consists of several modules that cover the different operational areas. Each module leads to a specialist certificate of its own. After obtaining the certificates for all modules, participants are awarded the Avaloq Operations Professional certificate. This certificate confirms that participants have gained substantial knowledge of the Avaloq Banking Suite, they are able to operate a production environment and to work on configuration and migration projects.

The course has fundamental applied content, comprising hands-on training and exercises, where participants learn how to manage the entire Avaloq Implementation.
Certification courses online

Avaloq Academy is committed to providing high-quality education and services and to delivering our certification courses online. These online courses are available until 31 August 2020. Stay tuned on our official communication channels, as we will continue to monitor the situation and inform you about relevant changes.
